The TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equaled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day . There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

4. FIRST AID MEASURES**Eyes**

If product is in eyes, flush with copious amount of lukewarm water for at least 15 minutes. Open and close eyelid(s) to ensure thorough irrigation. If problem persists, consult a physician.

Skin

If redness, dryness or other signs of irritation to the skin develop, wash affected area with plenty of warm water and soap. If irritation continues, call a physician.

Ingestion

If product is ingested, do not induce vomiting. Drink plenty of water or milk IMMEDIATELY. If the patient is vomiting, continue to offer plenty of water or milk. Never give water or milk to an unconscious person. Contact the nearest poison control center or local emergency number. Provide an estimate of the time and amount of substance that was swallowed.

Inhalation

If symptoms are experienced, remove source of contamination or move victim to fresh air. If affected person is not breathing, apply artificial respiration. If breathing is difficult, give oxygen. Get medical attention.

Medical Conditions Aggravated by Exposure

6. ACCIDENTAL RELEASE MEASURES**Spills**

Before cleaning any spill or leave, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment. For small spills (e.g., <1gallon) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows). Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state, and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse.

For spills ≥ 1 gallon, deny entry to all unprotected individuals. Barrier and contain spill with inert material (e.g., sand or earth). Transfer product to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of municipal sewers and open bodies of water.

7. HANDLING AND STORAGE**Handling**

Avoid eye contact. Use in a cool, dry, well-ventilated location. Keep container securely closed when not in use.

Storage

Store in a cool, dry, well-ventilated location. Do not store in damaged or unmarked container or storage device.

Special Precautions

Spilled material may present a slipping hazard if left unattended. Clean all spills promptly.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION**Ventilation & Engineering Controls**

General mechanical or natural ventilation is sufficient when product is in use.

Exposure Control

Provide sufficient ventilation to maintain exposure below exposure guidelines (if applicable) or below levels that cause known, suspected or apparent adverse effects.

Eye protection

None needed under normal use. If necessary, splash or safety glasses may be worn.

Skin and body protection

None needed under normal use.

Respiratory Protection

None needed under normal use.

10. STABILITY AND REACTIVITY**Stability**

This product is stable under ambient conditions when stored properly

Conditions to avoid

Open flames, sparks, high heat and direct sunlight.

Incompatible products

None known or reported.

Hazardous decomposition products

Oxides of carbon and nitrogen.

Hazardous Reactions

Hazardous polymerization will not occur.

11. TOXICOLOGICAL INFORMATION**Acute Effects****A: General Product information**

The product has not been tested on animals to obtain toxicological data. There are toxicology data for the components of this product which are found in the scientific literature. This data has not been presented in this document.

B: Component Analysis**Acute Toxicity**

See section 2

Chronic Toxicity

See section 2

Suspected Carcinogen: No

Reproductive Toxicity: This product is not reported to produce reproductive toxicity in humans

Mutagenicity: No reported to produce mutagenic effects on humans

Reproductive: No reported to produce mutagenic effects on humans

Embryotoxicity: No reported to produce mutagenic effects on humans

Irritancy of Product: See section 2

Biological exposure Indices: NA

Physician Recommendations: Treat symptomatically.
