

Ingestion:

Do not give anything by mouth to an unconscious person. Do not, induce vomiting. Gargle the victim's throat or vomit by having the victim touch the back of their throat with a finger.

SECTION 5. FIRE-FIGHTING MEASURES

Flash Point: Nonflammable, in case of fire use extinguishing media appropriate to surrounding conditions.

Autoignition temperature: Not applicable.

Lower explosive limit: Not applicable.

Upper explosive limit: Not applicable.

Dust cloud ignition temperature: Not applicable.

Dust layer ignition temperature: Not applicable.

Extinguishing media: Carbon dioxide, dry chemical or foam recommended. Apply water spray to cool exposed closed containers.

Fire fighting procedures: Positive pressure, self-contained breathing apparatus. Wear full protective clothing.

Unusual fire and explosion hazards: Not a fire or explosion hazard.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Spill Procedures:

Small spill:

For dry powder spills, inert materials such as sand may be added to control dusting prior to cleanup. Industrial grade vacuum sweepers are also recommended. Place spilled material into appropriate waste containers for disposal.

Large spill:

Contain spilled material immediately with an inert substance such as sand or earth. Use plastic or aluminum shovel to transfer diluted waste material into appropriate containers for disposal.

Personal precautions:

Avoid dust formation.

Environment precautions:

The product is not a hazardous waste. Dispose of in landfill in accordance with national and local laws and regulations.

SECTION 7. HANDLING AND STORAGE

Handling:

Wash thoroughly after handling.

Avoid generating or breathing dust.

Avoid contact with eyes.

Storage:

Store in a moderately cool, dry, well-ventilated area away from direct sources of heat and electricity.

Empty containers may contain product residues and should be handled appropriately.

Position containers so that any labelling information is visible.

SECTION 8. EXPOSURE CONTROL / PERSONAL PROTECTION

Exposure limits:

AGGIH TLV-TWA for nuisance dust is $2 \text{ mg/m}^3 \sim 3 \text{ mg/m}^3$.

Personal protection:

Respiratory protection- Use dust mask if exposure limits are exceeded or overexposure is likely or when handling in areas of pigment dusting. (NIOSH approved in USA)

Eye protection- Safety glasses with side shields.

Skin protection- None required.

Protective clothing- Impervious clothing should be worn when gross contact is likely, such as when cleaning up spills of large amounts.

Ventilation- General ventilation. Local exhaust ventilation is recommended to control exposures to within
